### **DIRECTORS' REPORT 2011-12**

To:

The Members
Agricultural Finance Corporation Limited

Dear Shareholders,

Your Directors have pleasure in presenting you the Forty Fourth Annual Report together with the audited statement of financial accounts of your Company for the year ended March 31, 2012.

Your Company has been engaged in providing consultancy services for more than four decades for monitoring and evaluation of the developmental programs launched by various Ministries of Govt. of India and implemented by State Governments. However during the 11<sup>th</sup> Five Year Plan Period your Company diversified into other areas such as grass-roots level project implementation, Training & Capacity building, IT based agricultural interventions, organic farming and monitoring quality aspects of civil works in social sector such as rural schools and Panchayati Raj.

In the current agrarian scenario wherein the buzzwords are "food security and sustainable development" the concept of organic farming has attracted more focus. Several States have started implementing programs related to organic farming adoption and certification of both agricultural and horticultural crops. Your Company has secured assignments in the States of Gujarat, Orissa and Chhattisgarh.

The roles of PRIs have been expanding in the implementation of various flagship programs of Govt. of India. In fact the PRIs have been playing a major pivotal role in the advancement of rural economy of the country. In the areas of Training and Capacity building, your Company had the opportunity to provide training to PRI functionaries in Uttar Pradesh and Jharkhand.

Financial Literacy has been one among the important issues receiving attention of policy makers. While several programs are targeting towards providing the same to the rural communities. Your Company also had the privilege of undertaking a program in West Bengal which was funded by NABARD.

The Ministry of Agriculture introduced six major flagship programs during the year 2011-12 at all-India level. The National Vegetable Initiative Program is one among them which contemplates promoting around 200 Farmers Producer Organizations in more than 28 States. Your Company was chosen to provide the services as a Management Support Group to Small Farmers Agri-business Consortium, a Company promoted by Ministry of Agriculture.

In this scenario, members would be glad to know that your Company has bucked the trend and done exceedingly well for the past three years. It has posted its highest profit for the year under review amounting to Rs 4.69 cr. This has been due to the pragmatic policy of diversifying business base by carrying out project implementation in addition to traditional studies and surveys and

entering non-traditional areas through business associates. Simultaneously, there have been rigorous cost-cutting measures that have yielded results. This has enabled your Company to introduce three rounds of Restricted Early Severance Schemes including last one during 2011-12, which entailed huge outflow in terms of the compensation package and gratuity payments that were required to be made. However all the payments have been booked in the respective years without having the need to amortize the same.

### I. Business Performance (2011-12)

The total number of assignments bagged during the reporting period was 51 with consultancy fees to the tune of Rs.57.36 cr. The volume of business that was carried forward from the previous year (2010-11) was 120 assignments with a fee amount of Rs.45.73 cr. Your Company was able to successfully complete 73 assignments during the year with a PCM income of Rs.55.27 cr. The new associates who were registered during the current year included one each in the States of Andhra Pradesh, Haryana, Jharkhand, West Bengal, Maharashtra &Uttar Pradesh and two in the NCTR of Delhi. Your Company plan to continue this approach with suitable refinements during next year.

The review was entrusted to National Institute of Agricultural Extension Management, Hyderabad (MANAGE). Your Company is pleased to report that the mid-term review undertaken by MANAGE revealed that the project was quite successful in fulfilling the project objectives. MANAGE made following observations and recommendations:
